These facts demonstrate how easily Wall street is operated to reduce the credit of Gov-rennent. Finding that the capitalists of oth-or actions are willing to take the whole loan to per cent., they all rush in for their share.

worthy to his any position of trust, and obvi-ously this makes the task of selection all the more embarrassing. Cortain it is that half a score of institutions like the Chicago Post Office could be equipped from the present list of applicants for pieces of prospective vacan-cies in the office is this city.

of applicants for places of prospective vacancies in the office in this city.

The newly appointed Post Master will enter upon the duties of his office about the middle of the present month, and meanwhile finds the place he helds, though only prospective, no sinceure from reasons and causes above set forth. Neither of omnibuses before they get ready to start, nor of post office administrations before they are under way, can it be said "All fall inside," and probably the later comers will continue to crowd up, and follow-

h reeff. She has man'e her run smid perils that only stout hearts and experienced seam mahip could have not and overcome.

The McQueen left Chicago on the morning of the next day. Thursday, was among the drift loo between Sleeping Bear at d South Manitou, having made a run of 220 miles. She pushed her way through it, and tried to get into the hashes of South Manitou, but failing, lay all. Thursday night moored to an ice floe. On Friday morning she ran to the S.E. and finding at open course between the ice and the cest shore, steamed through it to Northport in Orand Traverse Bay reaching it the same afternoon.

Here they wooded up, hauled their find to the steame routh teams two miles across the

the steamer with teams two miles across the loc. A change in the wind set the ice down upon them and haumed them in shore. On Saturday she attempted to get out, was driven back. After hard work, they succeeded in getting clear on Sanday shout I o'clock, p.m.,

Ilt fasied to find it, and had to return. The

The course was shaped for the west shore, when they got sight of Point Ann Barquea. Themes, in a violent anow storm they hauled up southward and made for Chicago. On Tuesday night they ky with heavy ice all about them, the marks of which ensounter, the gallant little propeller still bears. Out of this they cut their way with much labor, getting out about 11 a. m. of Wednesday.

The McQueen reached Milwaukee at daylight yesterday morning, and Chicago at 6 o'clock p, m. yesterday. She has found only one clear day since she jeft. Those on the o'clock p, m yesterday. She has found only one clear day since she left. Those on the propeller were Capit Ballantine, her command-er, Capt. John Frindiville one of her owners,

being from ten to sieven lnehes thick. A few days of warm weather would, from the amount of snow on it wear it away quick. The drift. lee is heavy, but has been driven to the west-ern shore, and will probably be used up before it can be driven back. It was on their return home up along the west shore that their greatest difficulty was experienced.

The party have had a most adventurous and memorable trip, which depublics all of them

memorable trip, which doubtless all of the were willing to see ended last evening. PIRES.

State street. The entire loss, including stock, Mr. Dole was sleeping in the building at the

This crey sea, and many exposed white special content of the property of the p nator finding no competitor but gas in our cities. A leading, and indeed the pioneer Chicago house in this trade, C. L. Noble, No. 122 South Clark street, has its advertisement in another column, to which we invite attention, and with the nimost consistency with the above savice and caution against bogus Kérosana.

The Chicago Post Office.

There is only eighty-five posts in all, in the Chicago Post Office and for each one of these Chicago Post Office and for each one of these Chicago Post Office and for each one of these Chicago Post Office and for each one of these Chicago Post Office and for each one of these Chicago Post Office and for each one of these Chicago Post Office and for each one of these Chicago Post Office and for each one of these Chicago Post Office and for each one of these Chicago Post Office and for each one of these Chicago Post Office and for each one of these Chicago Post Office and for each one of these Chicago Post Office and for each one of these Chicago Post Office and for each one of these Chicago Post Office and for each one of these Chicago Post Office and for each one of these Chicago Post Office and for each one of the most noted o delay, and the prompt action of officer Nel-son resented the young girl from a life of mis-ery and dishonor, it is to be hoped. The Court, after hearing the surroundings of the case, gave the girl a severe repr do better and return home.

turned the balance of trade in favir of the west hand has after so trade in favir of the west hand has afters of years it may be doubted whether a merely agricultural people make my very considerable gain, ladeed the history of the world has shown hat a people with mixed pursuits, who not early sell their surplus product of the soil, and the manufacturing industry to dispuse of, became in a very few generatings both six as an extension of the soil, and manufacturing industry to dispuse of, became in a very few generatings both six as an extension of the soil, and powerful. Look at the immense drains that must be made upon the profits of our cargua, Costs Rica, Sen Salvador, New Granach. Nementals, Economic not surply in with those manufacturing industry to dispuse of, but aware also and carried soil of last December he fought his last battle. He has core in the surplement of the soil and hone. We sall our hides to Eastern dealers at a profit to them, we visually pay freight interest and hingurance ill they reach the tumer among the two rimally pay freight interest and hingurance ill they reach the manufacturies in New England. Not only does the manufacturers in New England. Not only does the manufacturer and hingurance and freight most be added to the flour and provision, interest and insurance are again added on the manufacturer and his profits of contracting the manufacturers in New England. Not only does the manufacturer and his profits of the manufacturer and his profit of the man

would most gladly add to of their homes, could they ties to do it. Now suppose

pergu control (a) in aminimisphe of the first control in the control of the contr

drains upon our prosperity are America, Venezuela, New Granada and stopped; that as population, and Ecuador in 1821; and lastly, Peru and Bostopped; that as population and the increased we are now to tradually but surely the manufacture arge range of goods, both for our ows at and for export that inspires so that the surely surel

erous must furnish employment But the Spain of to-day is not the Spain people. In this respect Chicago of 1831. A constitutional government, call inducements to the manufacture of the Itlinois, an educational system equal to the best in Europe, continued peace at home and abroad, a decline in buil fights, relief from the Inquisition, internal improvements, etc., have wrought a wonderful change in the land of Ferdinand the Catholic. The recoverating source of Saain was change in the land of Perdinand the Catholia. The recuperating power of Spain was
y long ago noted and commented upon by
Mr. Webster, when his fellow Senators
were deriding and belittling its maignificance among nations. Though as yet possessed of an inconsiderable navy, her miltitary strength is formidable, and her treasury shows an abundant surplus. With the
return of prosperity to her people, the old
tices of Spanish greatness have returned
also. The instinct of conquest is as rife at
Madrid to-day, as when Cortes, Pizarro,
DeSoto and Balbon took, possession of
North and South America in the name of
their sovereigns and of the most holy Catholic religion. The recent invasion
of Morocco was halled with rapture by the

The Mexican Extraordinary of March 16, of A rocco was halled with rapture by the entire population, and enormous sums of money were contributed voluntarily to meet the expenses of the war. We doubt not that the more recent invasion of San Domingo will meet a like enthusiastic response, and that the obvious purpose of the government to regain a portion of its lost treasures in America will be vastly popular. imanufacturing. It is will be some time before we can learn their seits, and it is travelers appear to have been quietly snoozing away in their seits, and their seits, and their seits, and their seits, when a short distance beyond Cordova they were starmed by the diligence stepping and the great distance are estable are estable. ensively in manufacturing. To the President of the Board of Trade, Minnaapolis:

DEAR SIR: Some few days since a gentleman called upon me, representing that he was
the sgent of your board, and of the Merchants of
your city and St. Arthony, to negotiate for the
transportation of freight to and from your
city, dec. At that time the 'arriff from Duncith to St. Faul and Minneapolis had not been
made up, and I have no knowledge of the
plans of the Northers or St. Lofis line.

The rates made within the Minneapota Packet
Company from Chicago to St. Paul, for Merchandise, are 70, 62, 53, and 45 cents per 100, as
per classification.

The Northern Line say they will run three boats each week to your landing so long as the stage of water will pay.

It is, penhase, praper that I should say to you that the boats complain that your business men have not hitherth kept faith with them. I have argod upon the Eacket Company the importance of making one more full and fair trial, which they have agreed to do at the rates of carriage between your place and St. Paul is small and by no means equal the benefits which would result to your people from a regular line. I trust your citizens will take a liberal view of the matter and untain the boats as for at they can. To your mer sauls and grain allipers I would asy that grain clowagors have been erected at Donieth and Fatton, which will gravelity spedies the transfer of grain from
